- ❖ Executive Stakeholder Alignment
- ❖ Organizational Leadership
- ❖ Enterprise Digital Transformation
- ❖ Workflow Automation
- ❖ Data & AI Governance
- ❖ Enterprise Platform Modernization
- ❖ Customer Insights & Discovery
- ❖ Platform & API Products

Professional Experience

***Career Break**, US* *Oct 2025 – Present*

- Took a planned, intentional pause following Director-level product leadership role; now fully energized and prepared for my next stint.
- Completed Kellogg Executive Education's Advanced Certification in AI and Product Strategy, deepening strategic expertise in AI-Driven Product Strategy and AI Strategies for Business Transformation to pioneer next-generation product frameworks and lead product-driven organizations.

***Blend360 LLC**, US-Remote* *Feb 2023 – Oct 2025*

Director, Product Management

- Led a team of **6+ Product Managers,** built and scaled a firm-wide Product Management Center of Excellence. Evolved **Product Management-as-a-Service** as an independent offering, elevating it from a Data Science and Data engineering adjacent role, built product operating frameworks and **15+ reusable playbooks** to set a high bar for quality and reliable client delivery.
- Owned multi-year product strategy and roadmap for a developer-centric federated data platform at a **Global Payments Technology Network**, embedding AI-first capabilities such as automated pipeline generation and natural language data discovery; **led 4 global client teams** with structured operating cadence (quarterly planning, weekly executive reporting), and onboarded external teams to the data platform, empowering **500+ data engineers/scientists** to accelerate delivery cycles while maintaining regulatory integrity and security standards. Delivered **$24M+ in projected annual savings**.
- Led the re-architecture of an enterprise MarTech experimentation platform serving **72M+ customers** for a **Fortune 50 Broadband & Streaming Services Corporation**, **reducing campaign launch cycles by 25%**.
- Led the re-architecture of an enterprise data platform for a leading healthcare company, enabling AI-driven next-best-actions to improve member experience and care navigation across providers, pharmacy, and facilities, while **reducing cloud operational overhead by 90%**.
- Led enterprise data and AI modernization initiatives for a technology consulting company, delivering a data lake with medallion architecture that ingested data from **65+ data sources** to improve deal processing, along with self-service analytics platforms and GPT-powered automation that accelerated deal cycles and improved forecast accuracy across revenue teams.

Product Leader | Workflow Automation | AI-Enabled Products

***IBM**, Hyderabad, India* *May 2017 – Sep 2022*

Technical Product Manager – Enterprise Content Management

- Product manager and technical lead on an Enterprise Content Management modernization program for one of **Australia's "Big Four" banks**, migrating ~8 critical legacy applications across card disputes, business banking, and lending into cloud-ready architectures (**~$5M+ annual savings**) while driving a multi-year agile transformation across **10-12 multi-vendor, cross-functional teams** over **15+ program increments**.
- **Led a 6-person team** to build and scale an omni-channel customer communications platform for card dispute resolution. The compliance-first architecture orchestrates **4 channels across 75+ decision paths**, delivering secure, audit-ready communications to **2M+ banking customers**.
- Directed cross-functional teams for a Global Appliance and Smart-Living Enterprise to launch a new digital customer experience in Latin America, serving 30%+ of global users and **driving $10M+ in incremental revenue** through increased adoption and engagement.

***BNP Paribas**, Mumbai, India* *Sep 2011 – May 2017*

Senior Software Engineer

- Key contributor to BNP Paribas' post-merger consolidation of global trade finance platforms, partnering with business and engineering leaders to build the technology roadmap from business process analysis and **executing zero-disruption data migrations** for 1,000+ specialists, unifying complex retail and corporate systems into one scalable solution supporting thousands of daily transactions and **€2B in revenue**.

***Tata Consultancy Services (TCS)**, Mumbai, India* *Jul 2008 – Aug 2011*

Systems Engineer

- Digitized loan and check-processing workflows with FileNet ECM (Enterprise Content Management) and BPM (Business Process Management), replacing manual, paper-based processes with automated, scalable systems and improving **loan processing efficiency by 20%+ for 5,000+ banking officials.**

Executive Education

AI-driven Product Strategy, Kellogg's Executive Education *May 2026 – Jul 2026*
AI Strategies for Business Transformation, Kellogg's Executive Education *Mar 2026 – May 2026*
Core Business Essentials, Harvard Business School Online *May 2022 – Sep 2022*
